- are threatened by unemployment
- cannot find solutions to job- or family-related problems on their own
- need information on subsidies
- want to change their professional field in order to have more income
- are in danger of losing their home
- are threatened by violence and need help quickly

## akzente

### **offers training and education for women who**

- want to improve their computing skills
- are interested in learning and studying
- want to work on their strengths and weaknesses
- want to be able to cope more confidently with difficult situations

## akzente

### **offers an after-school care centre (Hort) for students in Bärnbach**

## **Counselling is free of cost**

Our services are subsidised by the Federal State of Styria, the Ministry for Social Affairs and the Federal Ministry for Education and Women. This is why all counselling services are free of cost. For individual education services a contribution to expenses is charged.

Counselling and services are in German language. However, we are working on cooperating with supra-regional organisations which support us in your mother tongue when needed. Please tell us if you need an interpreter.

## **We are mobile**

We offer counselling in our offices in Voitsberg and Deutschlandsberg. Individual education programmes are also carried out in smaller municipalities (from Eibiswald to Edelschrott).

## **We have good connections**

If there are any concerns with which we cannot support you, we establish contact with suitable organisations.

## **Contact**

**Tel:** 03142/ 93 030, Mon – Fri from 8:00 – 12:00 a.m.
